

GNYC! Academy – Agenda (Day 1) – April 27, 2012

<p>Data, data everywhere – Now What? <i>Map out program logic models and learn about key strategies and tools that will help you make your data work for your students.</i></p>
<p>Objectives:</p> <ul style="list-style-type: none"> • Participants will begin to look at the different types of data that can be collected and used for program management. • Participants will begin to map out program logic models and identify specific areas that can be informed by data.
<p>1. Introductions / Ice Breaker</p>
<p>2. Overview and Goals</p> <ul style="list-style-type: none"> • Academy goals, participant goals (individual goals)
<p>3. Program management vs. Program Evaluation</p> <ul style="list-style-type: none"> • What is it and why is it important?
<p>4. What is Data?</p> <ul style="list-style-type: none"> • Participants will be encouraged to brainstorm and list anything they think is relevant to the prompt. Information collected here will be used to drill deeper into use and management and continued for discussion for Day 2 and possibly Day 3
<p>BREAK - LUNCH</p>
<p>5. Introduce the Logic Model</p> <ul style="list-style-type: none"> • Goal – to understand the different elements of the logic model and begin to discuss how to look at a logic model for program assessment.
<p>6. Recap the day / for next time</p> <ul style="list-style-type: none"> • Based on the material and information covered today is there anything specific you want us to think about or cover? Suggestions?

Funded by the Bill & Melinda Gates Foundation and in collaboration with CUNY Collaborative Programs, the *Graduate NYC! Academy for Transition Program Professionals* workshop series provides an opportunity for NYC-based organizations to work collectively to find solutions to increase their capacity to use student data to support and improve programming.
